PRINTERS' STRIKE FORCES PAPER TO END PUBLICATION

Long Island Daily Star Has
Been Issued for 42
Years.

John Collins, Manager of the Long Island Daily Star, which has been published continuously for forty-two years, announced this morning that because of the developments of the printers' walkout, the paper would to-day suspend for an indefinite period. The Star is printed from the same plant used for a big job business.

It was reported to-day that the American Federation of Labor would take action looking to the condemnation of the Central Federated Union of New York for its stand in opposition to the position of George L. Berry, President of the International Pressmen's Union, but it was not expected that the American Federation would go to the extreme of forfeiting the charter of the local federation, although that has been demanded by the heads of various international unions in the printing trades.

"FINGERPRINTS" OF BEES CONVICT HIVE STEALER

Kingsbury Doubly Stung When
Judge Orders Swollen Hands
Kept in Sight of Jury.

THOMPSON, Conn., Oct. 14.—Fred J. Kingsbury was stung to-day—doubly stung. Before Judge Haines he was charged with stealing a beehive worth \$40 from Barton Jacobs. When arraigned, Kingsbury kept his hands in his pockets.

"Hands on the table," ordered the wise Judge.

Very reluctantly Kingsbury grasped the bar before him. His hands were greatly swollen and irritated. Plainly the angry bees had resented the removal of their home.

Despite Kingsbury's loud protestations of innocence, the circumstantial evidence convinced the jury of his guilt and the learned Judge sentenced him to three months' imprisonment and to pay \$50 fine.

Held for Attack on Women in Rent Strike Quarrel.

Solomon Domowitz, No. 1574 Lexington Avenue, was admitted to bail in \$5,000 to-day on a charge of felonious assault. He is alleged to have assaulted Mrs. Pauline Hinerfeld, a neighbor, in a quarrel over a rent strike. At first he was held without bail, because it was not known whether Mrs. Hinerfeld would recover. She is now reported to be out of danger.

Aka \$20,000,000 for Vocational Training.

WASHINGTON, Oct. 14.—Secretary Glass recommended to Congress to-day an appropriation of \$20,000,000 to enable the Federal Board of Vocational Training to carry out the purposes of the Vocational Training Act.

BAD AIR BARS THE "FLU" DECLARES ARMY DOCTOR

Says Germs Make City Man More
Immune Than Those Living
in Country.

ST. LOUIS, Oct. 14.—There is no indication of influenza this winter, according to speakers at the convention of the Association of Military Surgeons of the United States in session here to-day. Col. Victor V. Vaughan, in an address, declared the fouler the atmosphere and the more bacteria one breathed the more immune he would be to disease. This was proved, he said, by statistics compiled during the war, which showed that the greatest death rate from disease was among men from rural districts.

"The city reared man," he asserted, "is accustomed to breathing filthy air, while the country-bred is not, and consequently a foul atmosphere will affect the latter sooner than the former."
